## Summary

Escape from a mysteriously locked office in this immersive and humorous text-based game. Experience the consequences of terrible management as you investigate interactive rooms, unlock the exit, and unravel the mystery of why the office was abandoned.

## Description

Mystery in the Office is an immersive text-based game that takes you on a journey through an abandoned office with a history of terrible management.

As the player, you will explore a series of highly interactive rooms where every object is clickable and provides information to advance the story. Your objective is to find a way out using the objects at your disposal, while you unravel the mystery of what happened there and why it was abandoned in a hurry.

It's not as simple as just walking out the main door. You will face obstacles such as fires, locked doors, and more, and you'll need to use your wits to overcome a variety of challenges to unlock the only available exit.

One unique aspect of the game is the sarcastic and ironic tone that permeates every message that you'll encounter.

The game doesn't take itself too seriously, and it's meant to make you smile as you solve puzzles and uncover the truth about what happened in the office. From the quirky object descriptions to the messages in the environment, Mystery in the Office is a humorous and engaging experience that will keep you on your toes.

If you're a fan of mysteries and enjoy the challenge of puzzle-solving, Mystery in the Office is a must-play game.
